**MEDICAL OFFICER OF HEALTH 1964.**

**A. LOFTUS. L.R.C.P., L.R.C.S., D.P.H..**

Health Department,  
The Clinic,  
Cecil Avenue,  
Skegness.

To the Chairman and Members of the  
Alford Urban District Council.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting my Annual Report on the Health and Sanitary condition of the district for the year 1964.

The estimated mid-year population as supplied by the Registrar General 2,220 compared with 2,170 in 1963, showed an increase of fifty in number.

There were forty-four live births, five of which were illegitimate, giving a birth rate of 19.8 per 1,000 population, compared with national rate of 18.4. There were thirty-one deaths from all causes, giving a death rate of 13.9 per 1,000 population, compared with a national rate of 11.3. 83.87% of deaths occurred in persons over sixty-five years and 16.13% under sixty-five years. There were no deaths in infants under one year of age.

There were sixteen cases of infectious diseases notified, two Whooping Cough, three Measles, two Puerperal Pyrexia, four Pneumonia, five Dysentery.

Repair Works were carried out to the filter beds. Report is awaited from the Council's Engineers, regarding possible extensions or improvements to the Sewage Disposal Works and the Town System.

On the Housing side, Site Works for the Council's New Housing Estate have been completed and the contract has been made for the first twenty houses which are under construction.

Food premises were visited regularly to ensure a high standard of Hygiene is maintained, 100% meat inspection was carried out at the private Slaughter House.

The Town's Water Supply is now under the control of the East Lincolnshire Water Board. This Board is now responsible for the health of its personnel, and purity of its Water Supply. The Water is also tested regularly by the Urban District.

I take the opportunity of thanking the Health Committee for their interest in the Department and the Public Health Inspector for his co-operation.

I am,  
Your obedient Servant,

A. LOFTUS.  
Medical Officer of Health.

## HOSPITAL SERVICES.

### GENERAL AND MATERNITY.

Alford Memorial Hospital provides for some medical and surgical cases, most medical and surgical cases are admitted to Louth County Hospital.

Maternity cases are admitted to Grace Swan Hospital, Spilsby, Louth Infirmary and Louth and district hospitals. Paediatric cases are admitted to Louth County and Lincoln County Hospitals.

### INFECTIOUS DISEASES.

Patients suffering from these diseases are admitted to the Isolation Hospitals at Lincoln and Grimsby.

### X-RAY FACILITIES.

X-Ray facilities are provided by the Alford Memorial Hospital and the Louth Infirmary.

### LABORATORY FACILITIES.

Laboratory facilities are provided by the Lincoln Branch of the Public Health Laboratory Service.

### WELFARE SERVICES.

Under the provisions of the National Assistance Act, 1948, it is the responsibility of the local Health Authority to provide accommodation for aged and infirm persons who are in need of care and attention. This accommodation is provided by the Local Health Authority in other districts of the County. It was not necessary to take action under Section 47 of this Act during the year.

### AMBULANCE SERVICE.

There is no Ambulance Station in the district, the nearest stations are at Louth, Mablethorpe and Skegness. The service is administered by the Local Health Authority.

### CHILDREN'S ACT, 1948.

By the provisions of this Act, certain classes of children come under the care of the Children's Department of the County Council. This Department is responsible for children who are for various reasons deprived of normal care of their parents.

WATER SUPPLY.

The following is a result of samples taken from source:-

Alford obtains its water supply from an Artesian borehole in the Spilsby sandstone, the site being off the Station Road near the railway level crossing.

On the 1st April, 1964, the Urban Council Water Undertaking became an integral part of the East Lincolnshire Water Board.

Water is pumped to the town and high level service reservoir at Miles Cross Hill - Well having a capacity of 75,000 gallons.

The average daily supply is 90,000 gallons.

Regular samples are taken weekly for bacteriologist analysis and no adverse reports have been received.

The Board have decided to install a Chlorination Plant at the source to safeguard the purity of the water pumped to supply.
